Workflow Management TCU

Daniel Borrajo (WM TCU Coordinator)

http://www.planet-noe.org
Workshop on Web-based Resources and Knowledge Interchange Formats for AI Planning and Scheduling

- Co-located with ECAI-02, Lyon (23rd July 2002)
- Co-organised with Lee McCluskey and Alfredo Milani
- Invited speakers:
  - Ian Horrocks (University of Manchester, UK). Semantic Web
  - David Hollingsworth (Fujitsu Services, UK and Workflow Management Coalition, Chair of the Technical Committee). Workflow Management
  - Lee McCluskey (University of Huddersfield, UK). Knowledge Engineering
- Main conclusion (from this TCU perspective): there are already standard languages for exchanging process models (WPDL and XPDL) that should help on interfacing with AI P&S tools
Other activities

- Previous event
  - Workflow and Intelligent Manufacturing: Common problems, Common Solutions?
  - Edinburgh (12th December 2001)
  - Co-organised with Ruth Aylett (IM TCU)

- Short-time visit
  - **Who?** Federico Pesora (ISTC-CNR, Italy to UC3M, Spain)
  - **Goal?** Setup a benchmark domain model for workflow management applications
Roadmap status

- New version since 18-June-2002
- Downloadable from TCU Web page
  
  http://scalab.uc3m.es/~dborrajo/planet/wm-tcu/

- As for the rest of Roadmaps, it should be reviewed by an external researcher before March 2003
